ABOUT FIREONE

About Fireone FireOne Fireworks FX, founded in 1995, has had the honor of celebrating with the people of Trinidad and Tobago and the Caribbean for various cultural events and celebrations for the past 23 years. Today FireOne remains the pioneer in the Fireworks industry servicing Trinidad & Tobago, the Caribbean region, and Latin America.

CORPORATE DIVISION WONDERS OF WIZARDRY

Corporate Division Wonders of Wizardry A pioneer in the design and installation of special effects and fireworks, Fireone's 'FX wizards' -weave their web of wonder at any event... indoor or outdoor, large or small. From weddings to corporate events to the world stage, our pyrotechnic engineers have handled the logistics of some of the most spectacular fireworks and special effects display ever staged in Trinidad and Tobago and the Caribbean.

WHAT WE DO

Our pyrotechnic specialists are available to deal with every aspect of an occasion, from a corporate event to the complete logistics of an international reggae tour.

FIREWORKS

Each fireworks program is custom-designed to the unique needs of our customers, taking into consideration budget, site availability, and type of firework, and length of the display. Our services range from traditional displays to more sophisticated pyro-musical productions where the latest in technology is used to choreograph precision-timed brilliant aerial fireworks programs to music. As the client, you provide us with the location and a budget. Fireone will survey the location, obligation-free to find out if your idea is possible.

**REMARKS: This quotation does not include
Fire & Police fees.
This will be invoiced after the display.**

CONCUSSION

Punctuate a moment in performance or simulate an action, like with Usher's concert where concussions were used to give the effect of Usher hitting a ball with a bat. Concussions loud explosions that can be used in many way

15' ICE JETS

These jets create plumes of cyro fog up to 15 feet high. This stream of heavy white fog propels either upwards or in any direction set. They are great to combine with lighting effects. The jets can be angled into the crowd to create a cool zone or in any direction or location desired.

LOW LYING FOG MACHINE

A thick white low lying the fog that sits on the ground level. This effect is great to combine with lighting effects. It can also be dispersed at different intervals throughout the event to set the desired mood.

40' ICE JETS

These jets create plumes of cyro fog up to 40 feet high. This stream of heavy white fog propels either upwards or in any direction set. They are great to combine with lighting effects. The jets can be angled into the crowd to create a cool zone or in any direction or location desired. We have a wide variety of

FOG MACHINE

A thick white low lying the fog that sits on the ground level. This effect is great to combine with lighting effects. It can also be dispersed at different intervals throughout the event to set the desired mood.

LARGE CONFETTI CANNON

The cannon is capable of propelling confetti up to 200 feet. Clients can customize colors, shapes, and materials used in the confetti. Basic colors and metallic are available in tissue material as well as foil. Shapes such as hearts, rosebuds, and stars can be specially ordered.

STREAMER CANNON

The cannon is capable of propelling streamers up to 100 feet. Clients can customize colors, shapes, and materials used in the confetti. Basic colors and metallic are available in tissue material as well as foil. The streamers burst into the air and float slowly down to the ground.

36" THREE SPEED PORT-A-COOL

Port-A-Cool units lower the surrounding air temperature an average of 20 degrees and actually generate cooled air. They are the most advanced, portable evaporative cooling system that offers effective, high-quality cooling at extremely low operational costs.

48" THREE SPEED PORT-A-COOL

Port-A-Cool units lower the surrounding air temperature an average of 20 degrees and actually generate cooled air. They are the most advanced, portable evaporative cooling system that offers effective, high-quality cooling

HELIUM BUBBLE MACHINE

Our unique bubble effects are created through the use of machines that literally create hundreds of bubbles in seconds.

SNOW MACHINE

Falling snow effects are designed to match the requirements of each job on an individual basis. Material and the method of its introduction to the set are dictated by the physical requirements of the location, the desired behavior of the snow, the duration of the effect, what the snow is to fall on to, also the

SKY DANCERS

These inflated sky puppets can be used to enhance any occasion. They are propelled by fans making the puppets dance as the air is pushed through. They are available in many different designs and may also be customized to your specifications.
